PRODUCT OVERVIEW

Flowsafe LS-TM Reversible Top Mounting Level Switch

The **flow**safe LS-TM is an easy to install top mounting level switch, and has a reversible float so that it can be used for either high or low level alarms.

The float is suspended from a 5 metre PVC cable with a polyethylene weight and is fully submersible and adjustable.

Ideally suited for level control on a variety of tank sizes due to it's compact size, allowing electrical equipment to stop and start automatically when a pre-set level has been reached.

- Can be used for normally open operation but can be reversed
- Including a 5 meter cable with a polyethylene weight
- Low cost solution
- Easy to install
- Reliable switching
- 1/4" BSP tank fixing
- Dimensions 94 x 25mm dia

AFTER SALES SERVICE

At **flowtech**[®] we operate a network of Service Engineers located throughout the UK who are supported by our offices located in Greater Manchester. The distribution of engineers means that in the majority of cases we are less than 4 hours away from attending a customer call out.

We place great emphasis on providing technical back up to support our Service Engineers in resolving some difficult operational and technical issues. We pride ourselves on completing a project on time, within budget and never leaving a problem unresolved, or a customer waiting. This quality of service has made us the first choice for our customers.
